PROFESSIONAL SUMMARY

Mobile Application Developer specializing in Flutter, Android, and React Native, with a track record of building and shipping production apps for an international client and for Khyber Pakhtunkhwa government digital initiatives. Skilled across the full app lifecycle — API and CRM integration, offline-capable local storage, and release management on both the App Store and Google Play — with apps published surpassing 100,000+ combined installs. PMP-certified, with hands-on experience leading development work and training/mentoring technical teams. Looking to bring this mobile development and leadership expertise to a Mobile App Developer role.

CORE SKILLS

- Flutter & Dart
- Android (Java, Kotlin, Android SDK)
- React Native
- Firebase (Auth, Firestore, Push)
- Team Leadership & Mentoring
- REST API Integration
- SQLite & Local Storage
- Git & GitHub
- Agile / Scrum, PMP-Certified PM
- Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Senior Flutter Developer — NinthDev (Remote)

January 2023 – Present

- Build and maintain 'Affordable Pest Control', a production Flutter application used daily by field staff of an Australian client to manage and track pest-control jobs.
- Integrate REST APIs to connect the app with the client's CRM, keeping job and customer data synced in real time.
- Own the release process for both the Apple App Store and Google Play, delivering stable, well-tested updates.

Consultant – Mobile Application Developer — KPITB, Peshawar

May 2025 – November 2025

- Led design and development of mobile applications for Khyber Pakhtunkhwa government digital initiatives using Flutter and React Native.
- Partnered with cross-functional teams — design, backend, and QA — to deliver secure, accessible citizen-facing services.
- Prioritized scalable architecture to support ongoing feature growth across multiple government projects.

Founder & Lead Developer — IntelliLogics

January 2017 – December 2021

- Founded and ran a mobile development studio, taking client apps from requirements through App Store and Play Store launch.
- Built Flutter applications with Dart, integrating Firebase, REST APIs, and SQLite for offline-capable local storage.
- Developed native Android applications in Java, including Google Maps integration and local data persistence with SQLite and Shared Preferences.
- Managed client acquisition, project delivery timelines, and a small development team.

Software Engineer — Nextbridge (Pvt.) Ltd, Lahore

October 2011 – January 2013

- Developed and maintained software solutions using Ruby on Rails as part of the engineering team.
- Built foundational full-stack development experience that later supported backend and API integration work in mobile projects.

TRAINING & MENTORSHIP

Lead Flutter Trainer & Instructor — Multiple Institutions

2022 – 2025

- Delivered Flutter and mobile development training to students and professionals through NIC Peshawar, Arfa Karim Technology Incubator, MetaPi, Hazza Institute of Technology (Islamabad, GBIT, and Nawabshah), Karakoram International University, Air University, NUML, and MCS-NUST.
- Designed and continuously improved course curricula, guiding trainees through real-world mobile app projects to make them job-ready.
- Founded the IntelliLogics YouTube channel (2017 – Present), publishing free Flutter, Android, Kotlin, and Java tutorials in Urdu, Hindi, and Pashto to broaden access for regional learners.

EARLIER CAREER

Lecturer, Computer Science — CECOS Data Institute, CECOS University of IT & Emerging Sciences, Peshawar

November 2009 – June 2011

Data Collection & Monitoring Assistant (BS-16) — KP Education Monitoring Authority, District Nowshera

February 2014 – January 2017

EDUCATION

Master of Science, Computer Science — Sarhad University of Science & Technology, Peshawar (2011)

Diploma, Information Technology — Board of Technical Education, Peshawar (2008)

CERTIFICATIONS

- Project Management Professional (PMP) — Project Management Institute (PMI), 2026
- Google Project Management Professional Certificate (v.3) — Google / Coursera, 2026
- Meta React Native Developer Program — Meta / Coursera, 2025

ACHIEVEMENTS & PUBLISHED APPS

Developed and published mobile apps on Google Play and the App Store surpassing 100,000+ combined installs, including Kombat IQ, Caddie AI, Rendara Art, and BOM – MCQs, Quiz & Exam Prep.
